

Technical Data Sheet

PTMEG 650 (Polytetramethylene Ether Glycol)

PTMEG-650 is a 650 molecular weight linear polyether diol. PTMEG polyols are used in a wide variety of urethane applications where superior physical properties are required. These applications include spandex fibers, TPU's and high performance urethane elastomers.

<u>Typical Properties</u>	<u>Value</u>
Hydroxyl Value	172 mg KOH/g
Water Content	< 0.02 %
Acid Number	<0.05 mg KOH/g
Color (APHA)	< 50
Viscosity (cP)	150 cps @ 40 C

The information in this Technical Data Sheet is believed to be accurate but is made without warranty. The values listed are typical properties for the material and should not be considered product specifications. Everchem Specialty Chemicals disclaims any liability in connection with the use of this information, and does not warrant against infringement by reason of the use of any of its products in combination with other materials or in any process.
