

Everchem Binder HD MDI Binder Resin

Everchem Binder HD is a high performance, one component moisture cure polyurethane binder resin for use in the manufacture of bonded carpet cushion. Binder HD is a more linear system which provides increased tensile and tear properties compared to traditional binder adhesives. It exhibits excellent adhesion and flow characteristics for even distribution.

Typical Chemical Properties

Viscosity	~ 1500 cps @ 75 F
Lbs. /gallon	9.01 @ 75 F
% NCO	9.5 +/- 2.0%

Packaging

Everchem Binder HD is available in bulk or packaged in 2400 lb. tote bins.

Storage

Everchem Binder HD should be kept dry and cool. It is important to keep the product protected from moisture.
