

TXIB Plasticizer Technical Data

COMMODITY: TXIB 2,2,4-TRIMETHYL-1,3-PENTANEDIOL DIISOBUTYRATE

CAS No: 6846-50-0

CHEMICAL FORMULA: C₁₆H₃₀O₄

SPECIFICATION:

Appearance Colorless and transparent liquid

Purity≥%(GC) 99

Distillation Range(760mmHg°C) 280.0-290.0

Water Content≤% 0.1

Acidity(AS HAC)≤% 0.05

Color≤(Pt-Co) 10

APPLICATION:

It is a non-toxic plasticizer free of benzene ring, and it is applicable for toys, medical and food packaging materials, plastic products. It is a multi-purpose plasticizer and compatible with all the common first and secondary plasticizers, especially when used in conjunction with the DOP. This product is used as a solvent for PVC plastic, it can reduce the viscosity of the solution, and can be easily molded into the mouth of a small mold.

PACKAGE: 200KGS/IRON DRUM

STORAGE AND TRANSPORTATION:

STORE IN COOL, DRY, WELL-VENTILATED LOCATION, TRANSPORT AS COMMON CHEMICALS.
